GLOBAL WIND ORGANISATION (GWO) BASIC SAFETY TRAINING

Gridin’s Group technicians certified according GWO:

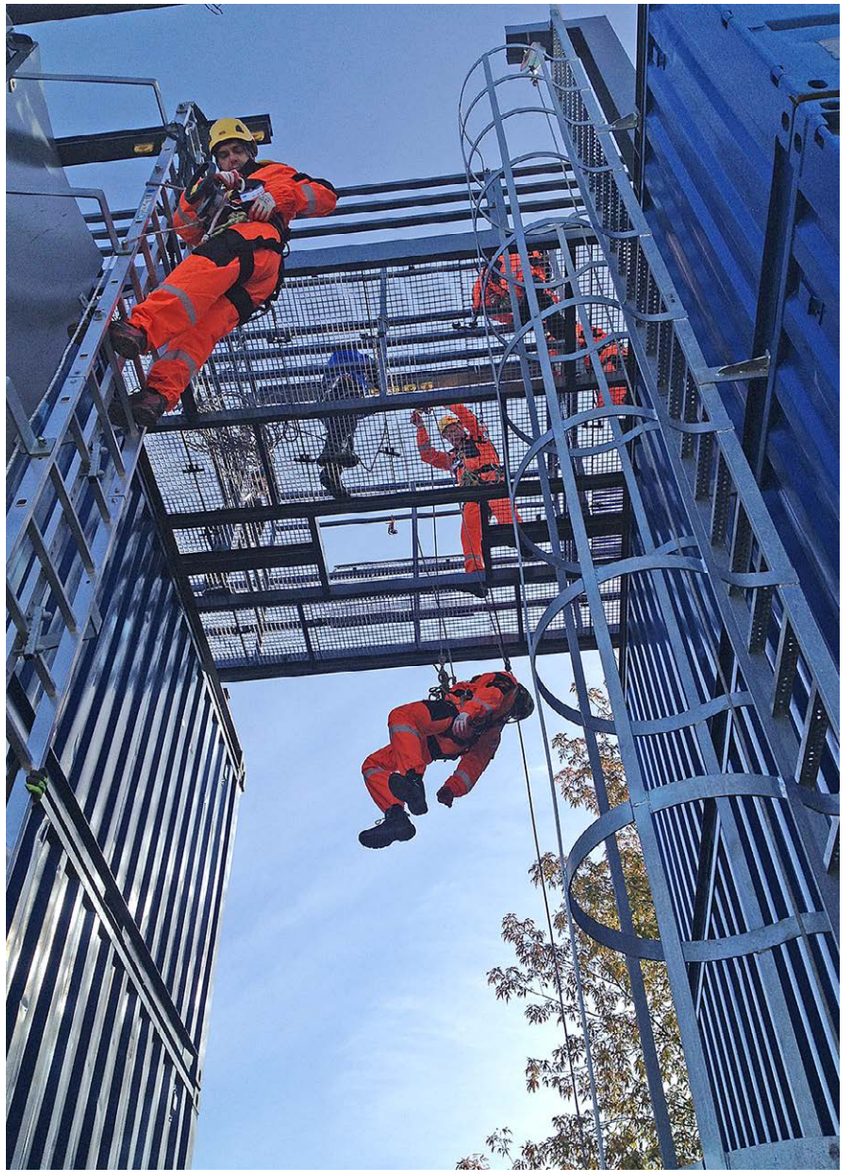

Marius Eismontas	IRATA L3
Justas Kazlauskas	IRATA L3
Andrej Kiricenko	IRATA L3
Raimundas Zablockis	IRATA L3
Andrej Kobzarev	IRATA L2
Zygimantas Skovronskis	IRATA L2
Dalius Bogatyriovas	IRATA L2
Grzegorz Jadanowski	IRATA L2

The organized training covers the following modules:
1. GWO Working at height (16 hours). The course topics: legislation, PPE, safety systems, risks and hazards present in wind turbines, rescue equipment, types of trauma, emergency situations. After the successful completion of course the certificate confirming Working at height knowledge according GWO requirements is issued.
The certificate is valid for 2 years.

2. GWO Fire Awareness (4 hours). The course topics:
legislation, causes of fire and prevention, firefighting methods, fire fighting equipment, practical exercises.
After the successful completion of course the certificate confirming Fire Awareness knowledge according GWO requirements is issued. The certificate is valid for 2 years.

3. GWO First Aid (16 hours). The course topics:
legislation, basic of human anatomy, risk factors, assessing casualties, emergency services, first aid to conscious and unconscious casualties (theory and practice), behavior in emergency situations. After the successful completion of course the certificate confirming First aid knowledge according GWO requirements is issued. The certificate is valid for 2 years.

4. GWO Manual Handling (4 hours). The course topics:
legislation, hazards and risks in wind industry, anatomy of the spine and injuries, risk management for lifting operations, safe manual handling methods (practice).
After the successful completion of course the certificate confirming Manual handling knowledge according GWO requirements is issued.
The certificate is valid for 2 years.

certificate

No. 225/012/2014

akademia wiatru sp. z o.o. hereby certifies that Mr.

Marius Eismontas
born 17.11.1976

has completed the following 16 hour training course

Basic Safety Training - Working at Heights module - approved by the Global Wind Organisation

which was held in Koszalin by akademia wiatru on 01-02.09.2014

purpose of the training:

- legislation - national and global
- tools of the trade and a guide to PPE
- vertical fall arrest systems and fall arrest lanyards
- risk and hazards present in wind turbine
- safety systems (practical exercises)
- suspension trauma
- emergency exercises in a wind turbine environment

practical exercises carried out using SALA ROLLGLISS R500, SKYLOTEC AGR 2001 MILAN 2.0 HUB and CRESTO RED PRO systems, CRESTO ResQ DD, at heights 10m

issue date: 02.09.2014
expiry date: 02.09.2016

akademia wiatru sp. z o.o. hereby certifies that Mr.

Marius Eismontas
born 17.11.1976

has completed the following 4 hour training course

Basic Safety Training - module Fire Awareness - approved by Global Wind Organisation

which was held in Koszalin by akademia wiatru on 03.09.2014

purpose of the training:

- legislation - national and global
- fire combustion and fire spread
- fire extinguishing
- fire prevention
- fire fighting equipment in a wind turbine generator
- practice and scenario-based training

issue date: 03.09.2014
expiry date: 03.09.2016
