# PRODUCTION OF STEEL CONSTRUCTIONS for wind energy sector

ISO 9001
ISO 14001
ISO 18001

# ABOUT US

The global financial crisis of 2010 drove company's management to look for and expand into alternative types of activities. As a result, the company started providing services for structures involved in wind power engineering and other industrial constructions. It has solidified its position and growth in the offshore sector.

Today Gridin's Group is an experienced supplier of the steel constructions for the offshore wind energy sector, such as:

- Primary steel structures - TP'S; Wind generators towers;
- Secondary steel structures for different applications.

Our construction and welding specialists have extensive experience and required certificates to perform various welding works. We can perform work either at our partner sites or sites of our clients.

# INTERNATIONAL TRAINING CENTER

In 2006 Gridin's Group opened private educational center in Klaipeda (Lithuania) which gained **International Training Center (ITC)** status. Today **ITC** offers a wide range of training programs, following the requirements of potential customers, including creation of specialized facilities (simulators) for practicing the necessary practical skills by using equiment analogous to that used at the customer's facilities.

# INTERNATIONAL TRAINING CENTER

**The Center's activities are accredited by the Industrial Rope Access Trade Association (IRATA) and the Global Wind Organization (GWO).**

**Some of the training programs:**

- Training of wind power plant personnel according to GWO standards;
- Training of rope access specialists according to IRATA standards;
- Wind power plant blade inspection and repair;
- Mobile communication antenna maintenance and installation specialists;
- Training of: scaffolders, specialists according to VCA standards, electrical equipment specialists, sandblasters, painters, metallic construction welders, pipe welders, pipe fitters.

# PRODUCTION OF STEEL CONSTRUCTIONS

LEVATOR
Expertise in manufacturing

To ensure successful implementation of steel construction projects we have a partner (steel production plant) in Finland (Hanko).

**Plant advantages:**

- Lifting capacity up to 400t
- Assembly area right next to harbour
- Over 10,000 m2 roofed fabrication area
- More than 10 hectares of storage area
- Harbour with two piers (shipping lane depth 8m)
- Yard assembly area

**Factory info**

- Factory and the storage area: 22 hectares
- Workshop: 9 000 $m^2$
- Surface treatment facilities: 1 930 $m^2$
- Highest area - height under the hooks - 23 m.
- Lifting capacity on yard: 50t, 200t (410t)
- Workshop overhead bridge cranes: 3x100t, 1x40t, 3x20t etc.
