GRIDIN'S GROUP

PROJECTS

INDUSTRIKA

Letter of recommendation

To whom it may concern:

JSC "Industrika" is leading a project of an installation of a production line for the manufacture of syrups for food production company "Amilina".

Gridin's Group is responsible for installation and welding of stainless steel food tanks, stainless steel pipelines with diameters DN 50 to DN 250.

Preparation, fabrication and installation of support structures under the gallery.

"Amilina" representatives strictly control quality and all phases of installation of production line.

Gridin's Group strengths were fast response to changes of manning, good cooperation and flexibility.
