

Steel Construction

Gridin's Group is an experienced supplier of steel constructions in Offshore, Oil & Gas, Renewable and Nuclear as well as Industrial and Civil construction sectors. The production of steel constructions is mainly focused on:

- Primary steel construction;
- Secondary steel construction for different applications;
- Shipbuilding, ship repair and conversion.

Gridin's Group has a partner (steel production plant) which ensures successful implementation of projects of any complexity. **Gridin's Group** main role in partnership is production and technical supervision of the production process.
Production site location:

- **Finland** | Hanko / has a direct deep-water access | link

We are confident that the proper offer based on your needs will land on your desk in a timely manner.
