RESURSAS

GRIDIN'S GROUP INTRODUCES A PARTNER IN POLAND OPERATING A WORKSHOP PROVIDING PREFABRICATION SERVICES

Company operates **3500 sq.m.** fully equipped production area in Gostynin, Poland.
Workshop capacity, qualified and experienced employees, use of modern technologies and equipment allows us to implement various projects of any complexity and purpose in the pipe prefabrication and izometrical welding field.
All works are performed maintaining required technical parameters, defined by the client, to ensure the accuracy of prefabrication in order to achieve the proper fit at the customers site.

Advantageous geographical location of the workshop allows to ship the production efficiently by convenient mode of transportation.

ISO 9001:2008, ISO 14001:2004,
ISO 18001:2004, ISO 18001:2007, ISO 3834.

RESURSAS

WORKSHOP INFO

- Workshop and the storage area ≈3500 m²
- Workshop length 60m, width 16m, Surface 960 m²
- 3 pcs, doors (width 5,7m x height 5,7m)
- Overhead crane (KoneCranes) 2pcs, capacity 5 t
- 24-hour janitor

GRIDIN'S GROUP

RESURSAS

MAIN EQUIPMENT

Cutting equipment:

- Stiller metal cutting band saw, semi-automatic – 2

Mobile equipment:

- Telescopic handler Manitou – capasity 3,5 t
- 2 forklifts, capacity – 1,5 t

PREFABRICATION
WORKSHOP IN POLAND

MAIN EQUIPMENT

Welding machines:

- Lincoln V270
- Esab Origo Tig 3001
- Kemppi MinArc TIG Evo

RESURSAS

WELDING

- **2 * IWE**
- **2 * VT lvl 2**
- **Qualified welders**:
  EN 287-1, ISO 9606-1
- **Welding processes:**
  111, 141,135, 136
- **WPQR's EN 15614-1**

MAIN PRODUCTION

Prefabrication of piping & piping systems for various industries:

- Pulp mils
- Oil refineries
- Chemical plants
- Food and ship sectors

Used materials:

- Stainless steel
- Duplex, super duplex
- SMO
- Titanium
- Carbon steel (separate workshop)

Current production rate:

- Welding **3000-5000 dia inches** per week
